

JBoss Application Administration I

Varighed: 4 Days Kursus Kode: JB248

Beskrivelse:

JBoss® Application Administration I teaches you the best practices for installing and configuring [JBoss Enterprise Application Platform 6](#). Through hands-on labs, learn the essential, real-world tasks that a system administrator needs to know to effectively deploy and manage applications on JBoss Enterprise Application Platform.

Note: JB248 replaces our popular JB336 course and is meant for system administrators. The topics in this course cover all of the exam objectives of the JBCAA exam.

Målgruppe:

System administrators who are both new to JBoss and have experience with JBoss Enterprise Application Platform 5

Forudsætninger:

■ Base experience with system administration on Microsoft Windows, UNIX, or Linux® operating systems
Understanding of hardware and networking

No prior knowledge of Java, scripting, or JBoss Developer Studio required

Test og certificering

After completing this course, you should be prepared to take the JBoss Certified Application Administrator (JBCAA) exam (EX248).
