TOGAF 9 Level 2 Certified Course

Varighed: 3 Days   Kursus Kode: TF1310

Beskrivelse:

The TOGAF 9 Level 2 Certified course is a 3-day, interactive, classroom-based learning experience. The course focuses on the practical application of TOGAF™ 9 framework, building on the foundational knowledge and comprehension of Level 1, using practical scenarios to enforce concepts.

The purpose of certification for TOGAF 9 Level 2, known as TOGAF 9 Certified, is to provide validation that in addition to the knowledge and comprehension of TOGAF 9 Foundation, the candidate is able to analyze and apply this knowledge. The learning objectives at this level therefore focus on application and analysis in addition to knowledge and comprehension.

Målgruppe:

Individuals who require a deeper understanding of TOGAF 9 (e.g. System Integrators, Operational, business and IT developers, CIO's and IT managers, Program and Project leaders, IT specialists, architects) Professionals who are working in an organization where TOGAF 9 has been adopted and who need to participate in architecture projects and initiatives Architects who will be responsible for developing architecture artifacts Architects who wish to introduce TOGAF 9 into an architecture practice Architects who want to achieve a recognized qualification to demonstrate their detailed knowledge of TOGAF 9

Agenda:

- Individuals certified at this level will have demonstrated their understanding of:

- How to apply the ADM phases in development of an enterprise architecture

- How to apply Architecture Governance in development of an enterprise architecture

- How to apply the TOGAF Architecture Content Framework

- How to apply the concept of Building Blocks

- How to apply the Stakeholder Management Technique

- How to apply the TOGAF Content Metamodel

- How to apply TOGAF recommended techniques when developing an enterprise architecture

- The TOGAF Technical Reference Model and how to customize it to meet an organization's needs

- The Integrated Information Infrastructure Reference Model

- The content of the key deliverables of the ADM cycle

- How an enterprise architecture can be partitioned to meet the specific needs of an organization

- The purpose of the Architecture Repository

- How to apply iteration and different levels of architecture with the ADM

- How to adapt the ADM for security

- SOA as a style of architecture

- The role of architecture maturity models in developing an enterprise architecture

- The purpose of the Architecture Skills Framework and how to apply it within an organization

Forudsætninger:

There are no formal prerequisites; it is recommended that participants have experience in the IT domain.

Test og certificering

The exam is in open-book format, and includes 8 complex multiple-choice scenario-based questions. The exam lasts for 90 minutes and can be taken onsite (online) or through Prometric test centers.

Note, to be certified on TOGAF 9 Level 2, it is required to have passed the TOGAF Level 1 exam.
