Operation Orchestration 10.x Flow Development (OO220)

Varighet: 4 Days      Kurskode: OO      Version: 10

Beskrivelse:
This blended training course is designed to provide professionals who work in complex network environments with the skills that they need to maintain their networks and to diagnose and resolve network problems quickly and effectively. The course will provide information about troubleshooting and maintaining particular technologies, as well as procedural and organizational aspects of the troubleshooting and maintenance process. A large part of the training will consist of practicing these skills and reinforcing the concepts by putting them to use in a controlled environment. At the end of the course, delegates will have increased their skill level and developed a set of best practices based on their own experiences and those of other delegates that they can then take back into their own organizations.

Blended learning:
The Global Knowledge blended learning program provides access to the official learning material of Cisco. If you decide to attend a training in Global Knowledge blended learning format, you will start your training with a classroom training part, including an official certified Cisco instructor. At the end of this day you will receive homework. It will take approximately two days of self-study to finalize this homework. When you have finished the self-study part return to the classroom for two more days of Instructor Led Training. This also will give you the opportunity to discuss any answers or issues you have encountered, together with the instructor and your fellow students.

Course content is presented in easily-consumable segments via both Instructor Video and text. Interactivity is enabled through Discovery labs, content review questions, and graded Challenge labs and tests. This makes the learning experience hands-on, increasing course effectiveness, and provides students direct feedback on how well they have mastered the material. Gamification features are built in, including earning badges and a leaderboard, to encourage better performance.

You’ll receive a subscription to the course materials which is valid for 365 days.
