- Create, modify,and delete parent and child roles

Forkunnskaper:

You should have the skills or be familiar with the following areas:

- Role engineering
- Role-based access control models
- Linux 🗧
- DB2
- Security Identity Manager
- IBM WebSphere Application Server

Innhold:

- Unit 2: Planning the solution
- Unit 3: Using the administrative console
- Unit 4: Creating a role project
- Unit 5: Administering the Import process
- Unit 6: Administering roles
- Unit 7: Administering child roles
- Unit 8: Creating separation of duty constraints
- Unit 9: Creating reports
- Unit 10: Maintenance and problem determination
- Unit 11: Advanced course topics
- Unit 2: Planning the solution
- Unit 3: Using the administrative console
- Unit 4: Creating a role project
- Unit 5: Administering the Import process
- Unit 6: Administering roles
- Unit 7: Administering child rolesUnit 8: Creating separation of duty
- constraints Unit 9: Creating reports
- Unit 10: Maintenance and problem determination
- Unit 11: Advanced course topics
- Unit 2: Planning the solution
- Unit 3: Using the administrative console
- Unit 4: Creating a role project
- Unit 5: Administering the Import process
- Unit 6: Administering roles
- Unit 7: Administering child roles
- Unit 8: Creating separation of duty constraints
- Unit 9: Creating reports
- Unit 10: Maintenance and problem determination
- Unit 11: Advanced course topics

Unit 2: Planning the solution

- Unit 3: Using the administrative console
- Unit 4: Creating a role project
- Unit 5: Administering the Import process
- Unit 6: Administering roles
- Unit 7: Administering child roles
- Unit 8: Creating separation of duty constraints
- Unit 9: Creating reports

- Unit 10: Maintenance and problem determination
- Unit 11: Advanced course topics

- Unit 2: Planning the solution
- Unit 3: Using the administrative console
- Unit 4: Creating a role project
- Unit 5: Administering the Import process
- Unit 6: Administering roles
- Unit 7: Administering child roles
- Unit 8: Creating separation of duty constraints
- Unit 9: Creating reports
- Unit 10: Maintenance and problem determination
- Unit 11: Advanced course topics
- Unit 2: Planning the solution
- Unit 3: Using the administrative console
- Unit 4: Creating a role project
- Unit 5: Administering the Import process
- Unit 6: Administering roles
- Unit 7: Administering child roles
- Unit 8: Creating separation of duty constraints
- Unit 9: Creating reports
- Unit 10: Maintenance and problem determination
- Unit 11: Advanced course topics
- Unit 2: Planning the solution
- Unit 3: Using the administrative console
- Unit 4: Creating a role project
- Unit 5: Administering the Import process
- Unit 6: Administering roles
- Unit 7: Administering child roles
- Unit 8: Creating separation of duty constraints
- Unit 9: Creating reports
- Unit 10: Maintenance and problem determination
- Unit 11: Advanced course topics

Unit 2: Planning the solution

- Unit 3: Using the administrative console
- Unit 4: Creating a role project
- Unit 5: Administering the Import process
- Unit 6: Administering roles
- Unit 7: Administering child roles
- Unit 8: Creating separation of duty constraints
- Unit 9: Creating reports
- Unit 10: Maintenance and problem determination
