## Citrix NetScaler 10 Essentials and Networking

Längd: 5 Days    Kurskod: CNS-205

---

### Sammanfattning:

The objective of the Citrix NetScaler 10 Essentials and Networking course is to provide the foundational concepts and advanced skills necessary to implement, configure, secure, monitor, optimize, and troubleshoot a Citrix Netscaler system from within a networking framework. This course is designed specifically for learners who have limited or no previous NetScaler experience. In order to successfully complete this course, learners will have access to hands-on exercises within a virtual lab environment. This course is based on the Citrix NetScaler 10.0 product, but the skills and fundamental concepts learned are common to earlier product versions.

---

### Målgrupp:

New to the NetScaler platform    Currently networking professionals

---

### Målsättning:

■ **Upon successful completion of this course, learners are able to:**

■ Identify the capabilities and functionality of the NetScaler

■

■ Explain basic NetScaler network architecture

■

■ Obtain, install, and manage NetScaler licenses

■

■ Explain how SSL is used to secure the NetScaler

■

■ Implement NetScaler TriScale Technology, including Clustering

■

■ Configure advanced load balancing and GSLB on the NetScaler

■

■ Optimize the NetScaler system for traffic handling and management.

■

■ Customize the NetScaler system for traffic flow and content-specific requirements

■

■ Demonstrate monitoring and reporting through native NetScaler logging tools

■

■ Employ recommended tools and techniques to troubleshoot common NetScaler network and connectivity issues

---
