IBM PureData System for Analytics, NPS 7.0 New Features

Längd: 1 Days Kurskod: DW531G

Sammanfattning:
This is the Classroom version of Instructor-led Online course IBM PureData System for Analytics, NPS 7.0 New Features (ILO) (3W531GB) and Web-based training IBM PureData System for Analytics, NPS 7.0 New Features - WBT (1W531GB). In this course, you will learn the IBM Netezza Platform Software (NPS) Version 7.0 enhancements and new features, as well as how to apply them. These enhancements and new features include: Small query performance enhancements to increase concurrency and throughput Improved support for ODS workload profiles Workload Management enhancements to increase throughput and performance and support for Analytics Enhanced Event Manager templates for increased monitoring and notifications New capabilities for object maintenance New and modified system views for improved system management
In addition, you will get a brief overview of Unicode support, SQL changes and upgrade paths.

Målgrupp:
This intermediate course is for application developers, system administrators, data warehouse architects, and database administrators who are familiar with IBM Netezza Platform Software (NPS) Version 6.x.

Målsättning:
- Take advantage of page granular zone maps (PZGM)
- Improve Event Manager notifications
- Use Planner Control to eliminate JIT statistics
- Utilize new and modified system views for improved diagnostics and fault investigation
- Balance appliance workload for differing profiles
- Use enhanced object maintenance for greater flexibility in backups and restores

Förkunskaper:
You should know:
- Netezza Data Warehouse Appliance Usage 6.0
Innehåll:

- Unit 2 - Plan improvements
- Unit 3 - System management improvements
- Unit 4 - Event Manager templates and monitoring
- Unit 5 - Object maintenance
- Unit 6 - Database and SQL
- Unit 7 - Upgrade paths and supported platforms

- Unit 2 - Plan improvements
- Unit 3 - System management improvements
- Unit 4 - Event Manager templates and monitoring
- Unit 5 - Object maintenance
- Unit 6 - Database and SQL
- Unit 7 - Upgrade paths and supported platforms

- Unit 2 - Plan improvements
- Unit 3 - System management improvements
- Unit 4 - Event Manager templates and monitoring
- Unit 5 - Object maintenance
- Unit 6 - Database and SQL
- Unit 7 - Upgrade paths and supported platforms

- Unit 2 - Plan improvements
- Unit 3 - System management improvements
- Unit 4 - Event Manager templates and monitoring
- Unit 5 - Object maintenance
- Unit 6 - Database and SQL
- Unit 7 - Upgrade paths and supported platforms

- Unit 2 - Plan improvements
- Unit 3 - System management improvements
- Unit 4 - Event Manager templates and monitoring
- Unit 5 - Object maintenance
- Unit 6 - Database and SQL
- Unit 7 - Upgrade paths and supported platforms
