

IBM Cognos Analytics - Author Reports Fundamentals (v11.0)

Duration: 3 Days **Course Code: B6058G** **Delivery Method: Virtual Learning**

Overview:

This course provides professional report authors an opportunity to learn report building techniques using relational data models. Techniques to enhance, customize, and manage professional reports will be explored. Demonstrations and exercises will illustrate and reinforce key concepts during this learning opportunity.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

Authors

Objectives:

- Please refer to course overview
-

Prerequisites:

- Knowledge of your business requirements
 - Experience using the Windows operating system
 - Experience using a Web browser
-

Content:

* Create crosstabs using unrelated data items	Unit 8 - Use Additional Report Building Techniques	* Discuss dynamic drill through
Unit 5 - Present Data Graphically		* Setup package-based drill through definitions
* Create charts containing peer and nested columns	* Enhance report design with report objects	* Step scope
* Present data using different chart type options	* Reuse objects within the same report	* Use the Drill-Through Assistant
* Add context to charts	* Share layout components among separate reports	Unit 12 - Enhance Report Layout
* Create and reuse custom chart palettes	* Discuss report templates	* Force page breaks in reports
* Introduction to visualization	* Choose options to handle reports with no available data	* Modify existing reports structures
* Present key data in a single dashboard report	Unit 9 - Customize Conditional Formatting	* Apply horizontal formatting
Unit 6 - Focus Reports Using Prompts	* Create multi-lingual reports	* Specify print options for PDF reports
* Identified various prompt types	* Highlight exceptional data	* Format data and report objects Appendix A - Overview of IBM Cognos Analytics (Shared module)
* Use parameters and prompts to focus data	* Show and hide data	* Describe IBM Cognos Analytics and Financial Performance Management (FPM)
* Search for prompt types	* Conditionally render objects in reports	* Describe IBM Cognos Analytics components
* Navigate between pages	* Conditionally format one crosstab measure based on another	* Describe IBM Cognos architecture at a high level
Unit 7 - Extend Reports Using Calculations	Unit 10 - Drill-Through from One Report to Another	* Define IBM Cognos groups and roles
* Create expressions using functions	* Let users navigate from a specific report to a target report	* Explain how to extend IBM Cognos Analytics
* Add run-time information to the reports	* Pass parameter values to filter the data in drill-through targets	
* Create expressions using functions	* Navigate through multiple reports Unit 11 - Drill Through Definitions	
	* Discuss parameter-driven drill through
