

Citrix Virtual Apps and Desktops 7.x Help Desk Support

Duration: 2 Days **Course Code: CXD-105**

Overview:

Learn to support end-users accessing virtual apps and desktops as part of a Citrix solution. In this course you will learn to use Citrix Director to interact with user sessions and to capture information for solving issues or escalating to the administration team.

Gain foundational knowledge about the XenApp and XenDesktop technology and an understanding of how components interact. You will learn about each component, focusing on common user related issues that may arise, and how to apply a methodical approach to solve them using real world scenarios.

By the end of the course, you will be able to solve or escalate end-user issues appropriately.

Target Audience:

Built for help desk members whom are new to XenApp and XenDesktop 7.x and are focused on supporting end users. Potential students include help desk members, service desk members, and others who focus on solving user issues with XenApp and XenDesktop in a supporting role.

Objectives:

- How to support end-users connecting to Virtual Apps and Desktops through Citrix Receiver
 - A methodology to approach user related issues to minimize time to resolution
 - How to use Citrix Director to gather information and interact with user sessions
 - An understanding of the XenApp and XenDesktop solution and the role of the components
-
