

Deploying Cisco ASA Firewall Features E-learning

Duration: 1 Day **Course Code: E-FIREWALL**

Overview:

Learn the skills needed to configure, maintain, and operate the firewall features of the Cisco ASA 5500 Series Adaptive Security Appliances (ASAs) in this self-paced course.

Target Audience:

Anyone who implements and maintains Cisco ASA firewalls, Network security specialists and technicians and Candidates seeking CCNP Security certification.

Objectives:

- Pre- and Post-Assessments
 - A comprehensive set of pre- and post-assessments feature questions that map to your course content. By using the pre-assessments, you'll be able to concentrate on specific learning objectives and skills-acquisition goals. The post-assessments provide immediate feedback on what you've learned. If you're taking the course over the Internet, links take you directly to the information you need to review.
 - Knowledge Checks
 - Knowledge checks interspersed throughout your course content ensure that you understand the lessons as you go, ensuring that you meet your learning objectives and get the most out of the course.
 - E-Labs
 - The 20 e-Lab credits included in this course allow you to choose the e-Labs that best serve your learning needs.
-

Prerequisites:

- ICND2 - Interconnecting Cisco Network Devices 2
- IINS - Implementing Cisco IOS Network Security

Testing and Certification

- Prepares you for Cisco Exam 642-617 FIREWALL.
-

Follow-on-Courses:

- VPN - Deploying Cisco ASA VPN Solutions
 - MARS - Cisco Security Monitoring, Analysis, and Response System v3.0
-
