Red Hat Enterprise Security: Network Services Expertise Exam

Duration: 1 Days   Course Code: EX333

Overview:

The Red Hat® Enterprise Security: Network Services Expertise Exam is a performance-based exam that tests the skills covered in the Red Hat Enterprise Security: Network Services (RHS333) course. To enroll in this exam, candidates must hold a current Red Hat Certified Engineer (RHCE®) certification.

Target Audience:

Experienced RHCE Linux® system administrators responsible for the overall security of their systems and networked services, Experienced RHCE Linux system administrators tasked with security on other operating systems but who now want to perform those tasks on a Red Hat Enterprise Linux system andRHCEs interested in earning a Red Hat Certificate of Expertise or an RHCSS or RHCA certification .

Objectives:

- Exam candidates must have a current RHCE certification at the time of enrollment.

- This exam is performance-based, meaning that candidates must perform tasks on a live system, rather than answering questions about how one might perform those tasks.

- The hands-on nature of this exam make real-world experience a critical facet of preparation.

- Exam results are emailed within (5) US business days following the exam.

- See re-certification policies for more information regarding 'current' window for all credentials.

Prerequisites:

- Hold a current RHCE certification at the time the exam is taken.
- Have Red Hat Enterprise Security: Network Services (RHS333) or equivalent experience.
- Understand that real-world system administration experience is also an important aspect of preparation for the exam.

Testing and Certification

- Length 6 Hours09.00am start
An RHCE that passes this exam will have earned a Certificate of Expertise, which counts toward earning a Red Hat Certified Security Specialist (RHCSS) and Red Hat Certified Architect (RHCA) certification.
