## Managing Global Projects

**Duration: 0.5 Days**    **Course Code: GK2942**    **Delivery Method: Company Event**

---

### Overview:

Create a high-performing global project team.

In today's world of globalization and outsourcing, it is almost inevitable that you'll be part of an international project team at some point. Obvious differences exist between international and local teams-along with some hidden pitfalls as well. In this short course, you will learn how to overcome the challenges of working with team members who are not only in different time zones, but also in different cultures. You'll learn to be culturally aware and help your team understand how best to communicate and work together.

This virtual short course, specifically designed to give you a quick convenient way to renew and refresh your project management skills, maintain your Project Management Professional (PMP)® certification, and earn PDUs on your own time, at your own pace.

Virtual short courses do not include materials or headsets.

PMP is a registered mark of the Project Management Institute, Inc.

### Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

---

### Target Audience:
