

Exam Readiness: AWS Certified Advanced Networking - Specialty

Duration: 1 Day **Course Code: GK7388**

Overview:

The AWS Certified Advanced Networking ? Specialty exam validates advanced technical skills and experience designing and implementing AWS and hybrid IT network architectures at scale. As a networking specialist, you will design a secure, scalable, and highly available network infrastructure on AWS while addressing requirements like network security, hybrid IT connectivity, network integration with other AWS services, routing techniques, and network troubleshooting.

Target Audience:

This course is intended for: Data engineers Solutions architects Network engineers Infrastructure engineers who are preparing to take the AWS Certified Advanced Networking ? Specialty exam

Objectives:

- In this course, you will learn how to:
 - Navigate the AWS Certified Advanced Networking ? Specialty exam
 - Understand advanced networking concepts in AWS so you can design well-architected networking frameworks for your workloads in Amazon Virtual Private Cloud (Amazon VPC)
 - Connect on-premises data centers to Amazon VPC (AWS Direct Connect, AWS VPN), enabling AWS to function as an extension of the data center
 - Leverage network automation to accelerate workload deployments and app migration
 - Incorporate individual application networking requirements that use different
-

Prerequisites:

We recommend that attendees of this course have the following prerequisites:

- A current AWS Certified Cloud Practitioner or Associate-level AWS Certification
 - Two or more years of hands-on experience in maintaining and implementing large-scale networks
-

Content:

This course covers the following concepts:

- Testing center information and expectations
 - Exam overview and structure
 - Content domains and question breakdown
 - Topics and concepts with content domains
 - Question structure and interpretation techniques
 - Practice exam questions
-
