Security Fundamentals

Duration: 3 Days   Course Code: M40367   Version: A

Overview:

This three-day MTA Training course helps you prepare for Microsoft Technology Associate Exam 98-367, and build an understanding of these topics: Security Layers, Operating System Security, Network Security, Security Software. This course leverages the same content as found in the Microsoft Official Academic Course (MOAC) for this exam.

Target Audience:

The Microsoft Technology Associate (MTA) is Microsoft's newest suite of technology certification exams that validate fundamental knowledge needed to begin building a career using Microsoft technologies. This program provides an appropriate entry point to a future career in technology and assumes some hands-on experience or training but does not assume on-the-job experience.

Objectives:

- Understand Security Layers
- Understand Operating System Security

- Understand Network Security
- Understand Security Software

Prerequisites:

-

Content:

Module 1: Understanding Security Layers	Module 3: Understanding Security Policies	Module 5: Protecting the Server and Client
Module 2: Authentication, Authorization, and Accounting.	Module 4: Understanding Network Security	

Additional Information:

To help you prepare for this exam, Microsoft recommends that you have hands-on experience with the product and that you use the specified training resources. These training resources do not necessarily cover all topics listed in the "Skills measured" section.
