
Microsoft Office 365 MCSA Bootcamp

Duration: 5 Days **Course Code: O365**

Overview:

The all new Microsoft Office 365 for 2017 is here! In this 5 day Bootcamp you will witness the next generation of collaboration and productivity. Step up as we discuss not only these new technologies but also the potential opportunities they bring. From initial setup this course takes you through all the features from administration and deployment to integration, co-existence, migration and troubleshooting. We also look at the products themselves include SharePoint, Exchange & Skype for Business.

This exclusive & intensive five day Bootcamp not only prepares you to become certified in Microsoft's latest must have technology, but also prepares you with real world tangible skills that you will be able to use today. Join us for five days of intensive learning combined with immersive hands on labs, lectures and discussions. The purpose of the Bootcamp is to fast-track through the maze of technology and get straight to the point in five jam-packed days. Practical, focused and intense, each class gives delegates the opportunity to roll up their sleeves and get their hands dirty!

Courseware: All students will receive over 200 Gb of electronic course materials including slides, self-study materials, videos, eBooks etc. Please bring a portable hard drive with you on the first day of class.

Target Audience:

The Bootcamp is designed for experienced IT Professionals who need to administer, configure, manage and troubleshoot the next generation of cloud based collaboration platform. Potential Students must have at least 2 years' experience working with technologies such as Windows Server, Active Directory, certificate services and DNS. Experience of the core technologies, especially Exchange and SharePoint would be useful.
