## Essentials of IBM Rational AppScan Enterprise Edition v8.5

**Duration: 2 Days**    **Course Code: RL358G**

---

### Overview:

In this course, you learn how to use IBM Rational AppScan Enterprise. The course combines both class lectures and hands-on lab work so that you can learn how to use the product to test for web application security issues. You learn to use best practices in the context of real-world deployments. You gain hands-on experience using Rational AppScan Enterprise on demonstration web applications.

---

### Target Audience:

The target audience for this basic course is security auditors, security team managers, quality assurance practitioners and web application developers who need to understand web application vulnerability testing reports, run web application security scans on web applications, and administer Rational AppScan Enterprise. The audience might also include web developers, managers, or team leaders who are responsible for interacting with testers or who need to ensure that the tools are being implemented fully and appropriately.

---

### Objectives:

- Describe the capabilities of Rational AppScan Enterprise
  - Explain the potential risks of conducting an automated security scan
  - Work with dashboards, jobs, folders, reports, and alerts
  - Explain the differences between manual and automatic exploration
  - Configure, run, and optimize scans
  - Use scan logs and identify messages, export a scan log, and troubleshoot scans
  - Describe the process of analyzing scan results and using issue management
  - Explain the architecture of Rational AppScan Enterprise
  - Administer users, groups, and manage access control
  - Create scan templates and test policies
  - Describe best practices for generating management reports
  - Explain the major tasks and factors involved in a Rational AppScan Enterprise deployment
- 

### Prerequisites:

You should have:

- Web application security knowledge
  - Essentials of Web Application Security V2.0 (RT302) or Essentials of Web Application Security V2.0 (RT330)
- 

### Content:
