

EC-Council Certified Responsible AI Governance & Ethics (CRAGE) + Exam voucher

Duration: 3 Days **Course Code: CRAGE** **Delivery Method: Virtual Learning**

Overview:

Certified Responsible AI Governance & Ethics (CRAGE) Course is built to prepare professionals to govern AI systems responsibly across their life cycle: from policy and oversight to controls, compliance, and assurance.

The Certified Responsible AI Governance and Ethics Professional (CRAGE) Course is designed to prepare learners for 612-51 exam. This course equips professionals with the practical skills needed to establish governance structures, roles, and decision authority, applying ethical principles in operational, enforceable ways, managing regulatory obligations and audit readiness, & Assess AI risks and enforce accountability across design, deployment, and operation.

Participants will learn how to lead AI governance across cross functional teams and develop the skills to build regulatory compliant AI programs. They will gain hands on experience executing AI testing, validation, and auditing, develop expertise in AI risk assessment and third party AI risk management, and demonstrate the ability to define enterprise AI strategy and accountability.

By the end of the course, learners will be well-prepared to execute concrete governance artifacts, including AI governance charters, Risk registers aligned to NIST AI RMF, Model accountability maps and Audit evidence templates. These deliverables directly support audit readiness, regulatory review, and executive level oversight across the AI lifecycle.

This course includes an exam voucher.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

- Compliance Manager
- Director, Regulatory Affairs
- Regulatory Compliance Manager
- Chief Privacy Officer
- Data Protection Officer (DPO)
- Internal Audit Manager (Technology/IT)
- Technology Audit Manager
- Director, Internal Audit

Objectives:

- **After this course participants should be able to:**
- Build and implement enterprise AI governance frameworks.
- Identify, measure, and mitigate AI-specific risks across the life cycle.
- Put ethical, fair, transparent, and accountable practices into operations
- Map AI programs to NIST AI RMF, ISO/ IEC 42001, and applicable regulations.
- Coordinate governance across technical, legal, privacy, security, and risk teams.

Prerequisites:

- EC-AIE - EC-Council Artificial Intelligence Essentials (AIE) +

Testing and Certification

| Certified Responsible AI Governance & Ethics (CRAGE) is

Exam voucher

EC-Council's professional certification certifies professionals who can stand behind AI decisions. The certification equips leaders with skills for end-to-end AI governance, from policy design to audit readiness.

■ Certified Responsible AI Governance and Ethics Professional (CRAGE)

Follow-on-Courses:

Learners can progress to EC-Council's Certified AI Program Manager (CAIPM), or Certified Offensive AI Security Professional (COASP) depending on career goals.

- CAIPM - EC-Council Certified AI Program Manager (CAIPM) + Exam voucher
- COASP - EC-Council Certified Offensive AI Security Professional (COASP) + Exam voucher

Content:

Module 01 AI Foundations and Technology Ecosystem

Module 02 AI Concerns, Ethical Principles, and Responsible AI

Module 03 AI Strategy and Planning

Module 04 AI Governance and Frameworks

Module 05 AI Regulatory Compliance

Module 06 AI Risk and Threat Management

Module 07 Third-Party AI Risk Management and Supply Chain Security

Module 08 AI Security Architecture and Controls

Module 09 Building Privacy, Trust, and Safety in AI Systems

Module 10 AI Incident Response and Business Continuity

Module 11 AI Assurance, Testing, and Auditing
