
Data Protection Advisor Implementation and Management

Duration: 3 Days Course Code: EBAIM2

Overview:

This course introduces implementation and management tasks related to Data Protection Advisor. The course covers installing DPA components, as well as how to work with the product interface while generating and interpreting reports and changing visualizations. Some of the configuration and administration tasks covered include user credential management, configuration of backup components for reporting purposes and remote data collection configuration. Basic information and exercises on custom report creation are also provided. Course content is based on Dell/EMC Data Protection Advisor version 6.3.

Target Audience:

This course is intended for anyone requiring implementation and management training on the Data Protection Advisor product.

Objectives:

- Upon successful completion of this course, participants should be able to:
 - Install and configure DPA components
 - Manage the product through the GUI
 - Run and customize reports
-

Prerequisites:

To understand the content and successfully complete this course, a student must have a suitable knowledgebase/skill set including an understanding of:

- Backup and recovery concepts
 - At least one backup software package
- These courses, or comparable experience, are prerequisites for this course:
- MR-9WP-BCKREC (Backup and Recovery Fundamentals - Self Study)
-

Content:

The content of this course is designed to support the course objectives.

Module: Product Overview

o Lesson: Overview

o Lesson: DPA Architecture

■ o Lesson: DPA Licensing Overview

Module: Installation

o Lesson: Installation Overview

o Lesson: Server Installation

o Lesson: Agent Installation

o Lesson: Upgrades

■ o Lesson: Licensing

Module: Configuration and Administration

o Lesson: Discovering the Environment

o Lesson: Managing Objects

o Lesson: Groups

o Lesson: Users and Roles

■ o Lesson: Policies

Module: Management

o Lesson: Generating Reports

o Lesson: Managing Reports

o Lesson: Report Types

o Lesson: Dashboard

■ o Lesson: Advisor

Module: Advanced Configuration

o Lesson: Time Periods

o Lesson: Dashboards Templates

o Lesson: Creating Custom Reports

o Lesson: Menus

o Lesson: Creating Analysis Rules

o Lesson: System Settings

■ o Lesson: Federated Reporting

Module: Maintenance and Troubleshooting

o Lesson: Datastore Maintenance

o Lesson: ESRS

■ o Lesson: Troubleshooting
