CCSP-Certified Cloud Security Professional - Certification Preparation

Duration: 5 Days   Course Code: GK2364   Delivery Method: Virtual Learning

Overview:

2022 Update - Gain core knowledge and experience in cloud security architecture, design, operations, and service orchestration in this best-of-breed CCSP exam prep course.
This course is the most comprehensive review of cloud security concepts and industry best practices covering the six domains of the CCSP Common Body of Knowledge (CBK®). You will gain knowledge in identifying the types of controls necessary to administer various levels of confidentiality, integrity, and availability, with regard to securing data in the cloud. You will identify the virtual and physical components of the cloud infrastructure with regard to risk management analysis, including tools and techniques necessary for maintaining a secure cloud infrastructure. You will gain an understanding in cloud software assurance and validation, utilizing secure software, and the controls necessary for developing secure cloud environments. You will identify privacy issues and audit processes utilized within a cloud environment, including auditing controls, assurance issues, and the specific reporting attributes.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

Anyone whose position requires CCSP certification Anyone whose position requires CCSP certification Individuals whose responsibilities involve procuring, securing, and managing cloud environments or purchased cloud services Expert-level certification

Objectives:

- In-depth coverage of the six domains required to pass the CCSP exam:

- Cloud Concepts, Architecture and Design
