

Migrating to AWS

Duration: 3 Days **Course Code: GK4532**

Overview:

Migrating to AWS discusses how to plan and successfully migrate existing workloads to the AWS cloud. The course focuses on various cloud migration strategies with a detailed discussion on each phase of the migration process, including portfolio discovery, application migration planning and design, migration execution, and post-migration validation and application optimization. This course includes hands-on labs, group activities, and case studies to help reinforce the concepts learned.

Target Audience:

This course is intended for: IT professionals involved in projects related to migrating existing workloads to the AWS cloud Individuals who are part of an organization's cloud Center of Excellence (CoE)

Objectives:

- This course teaches you how to:
 - Plan and design your application migration strategy.
- Explain the various cloud migration strategies.
 - Perform and validate application migration to the cloud.
