

AIBiz - AI for Business Professionals

Duration: 1 Day **Course Code: GK840031** **Delivery Method: Virtual Learning**

Overview:

Artificial intelligence (AI) is not just another technology or process for the business to consider—it is a truly disruptive force, one that delivers an entirely new level of results across business sectors. Even organizations that resist adopting AI will feel its impact. If the organization wants to thrive and survive in this transforming business landscape, it will need to harness the power of AI. This course is designed to help business professionals conquer and move beyond the basics of AI to apply AI concepts for the benefit of the business. It will give you the essential knowledge of AI you'll need to steer the business forward.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

This course is primarily designed for business leaders, consultants, product and project managers, and other decision-makers who are interested in growing the business by leveraging the power of AI. Other individuals who wish to explore basic AI concepts are also candidates for this course.

This course is also designed to assist students in preparing for the CertNexus® AIBIZ™ (Exam AIZ-210) credential.

Objectives:

- In this course, you will identify ways in which AI can bring significant value to the business. You will:
 - Identify the functions of AI in business.
 - Implement business requirements for AI.
