

## ISO/IEC 27005 Risk Manager (PECB Certified) + exam

Duration: 3 Days    Course Code: IS27005RM    Version: 6.0    Delivery Method: Company Event

### Overview:

ISO/IEC 27005 Risk Manager training enables you to develop the competence to master the risk management process related to all assets of relevance for Information Security using the ISO/IEC 27005 standard as a reference framework. During this training course, you will also gain a thorough understanding of best practices of risk assessment methods such as OCTAVE, EBIOS, MEHARI and harmonized TRA. This training course corresponds with the implementation process of the ISMS framework presented in the ISO/IEC 27001 standard.

After understanding all the necessary concepts of Information Security Risk Management based on ISO/IEC 27005, you can sit for the exam and apply for a “PECB Certified ISO/IEC 27005 Risk Manager” credential. By holding a PECB Risk Manager Certificate, you will be able to demonstrate that you have the necessary skills and knowledge to perform an optimal Information Security Risk Assessment and timely manage Information Security risks.

### Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

### Target Audience:

Information Security risk managers  
Information Security team members  
Individuals responsible for Information Security, compliance, and risk within an organization  
Individuals implementing ISO/IEC 27001, seeking to comply with ISO/IEC 27001 or involved in a risk management program  
IT consultants  
IT professionals  
Information Security officers  
Privacy officers

### Objectives:

- Acknowledge the correlation between Information Security risk management and security controls
- Understand the concepts, approaches, methods and techniques that enable an effective risk management process according to ISO/IEC 27005
- Learn how to interpret the requirements of ISO/IEC 27001 in Information Security Risk Management
- Acquire the competence to effectively advise organizations in Information Security Risk Management best practices

### Prerequisites:

- A fundamental understanding of ISO/IEC 27005 and comprehensive knowledge of Risk Assessment and Information Security.
- IS27005F - ISO27005 Foundation (PECB certified) + exam

### Testing and Certification

The “PECB Certified ISO/IEC 27005 Risk Manager” exam fully meets the requirements of the PECB Examination and Certification Programme (ECP). The exam covers the following competency domains:

- **Domain 1:** Fundamental principles and concepts of Information Security Risk Management
  - **Domain 2:** Implementation of an Information Security Risk Management program
  - **Domain 3:** Information Security risk management framework and process based on ISO/IEC 27005
  - **Domain 4:** Other Information Security risk assessment methods
- For specific information about exam type, languages available, and other details, please visit the [List of PECB Exams](#) and the [Examination Rules and Policies](#).

After successfully completing the exam, you can apply for the credentials shown on the table below. You will receive a certificate once you comply with all the requirements related to the selected credential.

---
