
Microsoft Azure Fundamentals

Duration: 2 Days **Course Code: M-AZ900**

Overview:

This 2-day course is identical to the 1-day M-AZ-900T01 course. However this course lasts two days because of the hands-on parts. This course will prepare students for the same exam AZ-900!

This course will provide foundational level knowledge of cloud services and how those services are provided with Microsoft Azure. The course can be taken as an optional first step in learning about cloud services and Microsoft Azure, before taking further Microsoft Azure or Microsoft cloud services courses.

The course will cover general cloud computing concepts as well as general cloud computing models and services such as Public, Private and Hybrid cloud and Infrastructure-as-a-Service (IaaS), Platform-as-a-Service(PaaS) and Software-as-a-Service (SaaS).

It will also cover some core Azure services and solutions, as well as key Azure pillar services concerning security, privacy, compliance and trust. It will finally cover pricing and support services available with Azure.

Target Audience:

There are no pre-requisites for taking this course. It is targeted for anyone that wants to learn more about Microsoft Azure.

Objectives:

- Understand general cloud computing concepts
 - Understand security, privacy, compliance and trust with Microsoft Azure
 - Understand core services available with Microsoft Azure
 - Understand pricing and support models available with Microsoft
-

Prerequisites:

There are no pre-requisites for taking this course. Technical IT experience is not required however some general IT knowledge or experience would be beneficial.

Testing and Certification

-
-

Follow-on-Courses:

- M-AZ103, Azure Infrastructure and Deployment (AZ-103)
 - M-AZ203, Developing Solutions for Microsoft Azure (AZ-203)
 - M-AZ300, Microsoft Azure Solutions Architect - Technologies (AZ-300)
 - M-DP200, Implementing an Azure Data Solution (DP-200)
-

Content:

Module 1: Cloud Concepts

In this module you will learn basic cloud concepts.

- Learning Objectives
- Why Cloud Services?
- Infrastructure-as-a-Service (IaaS), Platform-as-a-Service (PaaS) and Software-as-a-Service (SaaS)
- Public, Private, and Hybrid cloud models

After completing module 1, students will be able:

- Understand general cloud computing concepts

Module 2: Core Azure Services

In this module you will learn the basics core services available with Microsoft Azure.

- Core Azure architectural components
- Core Azure Services and Products
- Azure Solutions
- Azure management tools

After completing module 2, students will be able:

- Understand core services available with Microsoft Azure

Module 3: Security, Privacy, Compliance and Trust

In this module, you learn about security, privacy, compliance, and trust with Microsoft Azure.

- Securing network connectivity in Azure
- Core Azure Identity services
- Security tools and features
- Azure governance methodologies
- Monitoring and Reporting in Azure
- Privacy, Compliance and Data Protection standards in Azure

After completing module 3, students will be able:

- Understand security, privacy, compliance and trust with Microsoft Azure

Module 4: Azure Pricing and Support

In this module, you will focus on pricing and support models available with Microsoft.

- Azure subscriptions
- Planning and managing costs
- Support options available with Azure
- Service lifecycle in Azure

After completing module 4, students will be able:

- Understand pricing and support models available with Microsoft
