ArchiMate® Bootcamp

Duration: 3 Days**Course Code: AMCV3****Version: 3.1****Delivery Method: Virtual Learning**

Overview:

This is a three-day ArchiMate® Bootcamp course for those who wish to achieve ArchiMate® Practitioner – level 2 certification from scratch. From introduction to advanced applications, you'll learn the structure, key concepts and techniques of the ArchiMate® standard, and will be able to model and visualize architectures.
After that you will learn advanced applications of the modeling language and advanced techniques, complex modeling situations and direct applications to your own real-world examples. Upon successful completion of this course you will be ready to take the ArchiMate®Foundation and Practitioner exam at a Pearson Vue Testing Center.
This ArchiMate® course is being run by Global Knowledge in association with Van Haren Publishing B.V. and is accredited by The Open Group.
Exam vouchers are included in the price of this course.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

This training course is very suitable for anyone who wants to be able to read and/or create architecture models:
- Architects
- Business Analysts
- Information Analysts
- Designers
- Product Owners
- Project leaders

Objectives:

- **Understand the background, key concepts and applications of ArchiMate® Core for modeling and describing architectures**

- Be able to use the ArchiMate® language and techniques to visualize and communicate architectures

- Understand the additional layers and aspects of the ArchiMate® standard, their viewpoints and their application to core concepts

- Be able to apply the derivation rules for relationships in the language

- Understand the language customization mechanism

- Be able to apply the ArchiMate® standard in complex modeling situations

- Be able to complete the ArchiMate® level 1 & 2 exams

Prerequisites:

- No specific prerequisites.

Testing and Certification

The exams are included in the course fee. Certification is only achieved after passing the following 2 exams:

ArchiMate® Part 1

- Multiple-choice
- 40 questions/60 minutes
- Supervised
- No Open Book

ArchiMate® Part 2

- Complex multiple-choice
- scenario-based
- 8 questions/90 minutes
- Supervised
- Open Book

Content:

- Course introduction
- Basic Concepts and Definitions of ArchiMate® language
- Language Structure
- Generic Metamodel
- Modeling relationships
- Motivation Modeling

- Strategy Modeling
- The business layer
- The application layer
- The technology layer
- Physical Elements
- Modeling cross-layer dependencies

- The implementation and migration extension
- ArchiMate® viewpoints and views
- Language Customization Mechanisms
- ArchiMate® Examination Program
- Course summary

Additional Information:

Please bring your laptop/tablet for digital courseware.
