

Implementing PowerVM Live Partition Mobility

Duration: 3 Days Course Code: AN33G

Overview:

This course describes the concepts and configuration details when implementing PowerVM Live Partition Mobility on POWER6 and POWER7 processor-based servers. Students will learn the requirements of Live Partition Mobility and will configure HMCs, Virtual I/O Servers, and partitions in preparation for performing active and inactive migrations. Live hands-on exercises will allow students to configure a lab environment and perform Live Partition Mobility operations.

The course is also offered in a live virtual classroom environment (ILO - Instructor Led Online), Implementing PowerVM Live Partition Mobility (ILO) (AX33).

Target Audience:

The audiences for this advanced training include AIX/Linux technical support individuals, system administrators, system architects and engineers, and anyone who needs a technical operational understanding of PowerVM Live Partition Mobility.

Objectives:

- Describe key components of Live Partition Mobility
- Describe differences between active and inactive Live Partition Mobility configuration and operations
- Describe configuration settings necessary for the HMCs, the source and target Virtual I/O servers, and the mobile LPAR
- Describe additional considerations when using dual Virtual I/O Server configurations, Active Memory Sharing partitions, and redundant HMCs
- Perform and monitor PowerVM Live Partition Mobility operations

Prerequisites:

You should:

- Have completed Power Systems for AIX - Virtualization I: Implementing Virtualization (AN30GB) or Power Systems for AIX - Virtualization I: Implementing Virtualization - ILO (AX30GB) or have equivalent LPAR and Virtual I/O Server skills.
- Be proficient with HMC Version 7, Virtual I/O Server operations, and AIX LPAR system administration.

Content:

- | | | |
|---|---|---|
| ■ Live Partition Mobility Configuration | ■ Live Partition Mobility Configuration | ■ Live Partition Mobility Configuration |
| ■ Live Partition Mobility Operations | ■ Live Partition Mobility Operations | ■ Live Partition Mobility Operations |
| ■ Advanced LPM Configurations | ■ Advanced LPM Configurations | ■ Advanced LPM Configurations |
