

StorageGRID Software Troubleshooting

Duration: 3 Days Course Code: NEP_SG-TS

Overview:

English - Please note this course is only available in English.

Nederlands - Let op: deze training is alleen in het Engels beschikbaar.

Français - Veuillez noter que ce cours est uniquement disponible en anglais.

In this course, students learn troubleshooting skills to support the implementation and lifecycle management of NetApp StorageGRID software. Through theoretical explanations and hands on exercises, delegates will learn to control the architecture, option, services and features of the StorageGRID system

Students will also learn about the security and authentication mechanisms, logging and monitoring resources and Apache Cassandra implementation. Additionally, the processes to expand and upgrade the system, FabricPool technology plus investigating Simple Storage Services (S3) issues.

Target Audience:

Professionals & Engineers who use or implement StorageGRID solutions (from all audience types). Supporting the following job roles..Systems AdministratorsSystem OperatorsSystem Engineers

Objectives:

- Understand the networking architecture of a StorageGRID deployment
 - Describe the load-balancing features of StorageGRID
 - Review the StorageGRID services and ports
 - Understand the impact of the StorageGRID options
 - Understand the Cassandra implementation in StorageGRID
 - Review the StorageGRID security and authentication mechanisms
 - Define the StorageGRID logging and monitoring resources
 - Review the expansion and upgrade processes
 - Examine FabricPool technology with StorageGRID
 - Investigate S3 issues with StorageGRID
-

Prerequisites:

- 6 to 12 months of StorageGRID experience
 - The NetApp StorageGRID Implementation Engineer accreditation
 - Good knowledge of Simple Storage Service (S3)
 - StorageGRID Troubleshooting Essentials via NetApp Learning Center
 - DataStax DS101 and DS201 training courses
-

Content:

Module 1:StorageGRID networking	<ul style="list-style-type: none">• Cassandra startup	Exercises
StorageGRID network topology	<ul style="list-style-type: none">• Nodetool	Troubleshooting StorageGRID authorization
Exercises	Exercises	Module 8:StorageGRID performance troubleshooting
Examining StorageGRID network architecture	Examining Cassandra fundamentals	<ul style="list-style-type: none">• StorageGRID performance factors
Module 2:StorageGRID software concepts	Module 5:TroubleshootingStorageGRID decommission,expansion and upgrade	<ul style="list-style-type: none">• Identify performance bottlenecks
<ul style="list-style-type: none">• Grid node services	<ul style="list-style-type: none">• StorageGRID decommissioning	Exercises
<ul style="list-style-type: none">• Managing node services	<ul style="list-style-type: none">• StorageGRID expansion process and issues	Examining StorageGRID performance details
<ul style="list-style-type: none">• StorageGRID configuration options	<ul style="list-style-type: none">• StorageGRID major version upgrade	Module 9:ONTAP FabricPool with StorageGRID
Exercises	Exercises	<ul style="list-style-type: none">• FabricPool object store
Exploring nodetool commands	Decommissioning and upgrading	<ul style="list-style-type: none">• Investigate object store unavailability
Module 3:StorageGRID logging and monitoring	Module 6: StorageGRID authentication and user management	<ul style="list-style-type: none">• Troubleshooting connection issues
<ul style="list-style-type: none">• StorageGRID service log files	<ul style="list-style-type: none">• StorageGRID authorization and authentication	<ul style="list-style-type: none">• Object store access issues
<ul style="list-style-type: none">• StorageGRID audit logging	<ul style="list-style-type: none">• StorageGRID multitenancy implementation	Exercises
<ul style="list-style-type: none">• Log analysis	Exercises	Troubleshooting ONTAP FabricPool technology
<ul style="list-style-type: none">• Log forwarding	Configuring StorageGRID authentication	Module 10:Troubleshoot S3 client and application issues
Exercises	Module 7:Troubleshooting StorageGRID security issues	<ul style="list-style-type: none">• Troubleshoot S3 request failures
Managing StorageGRID logs	<ul style="list-style-type: none">• StorageGRID security	<ul style="list-style-type: none">• S3 request logging
Module 4: Troubleshooting Cassandra	<ul style="list-style-type: none">• StorageGRID system hardening	
<ul style="list-style-type: none">• Cassandra fundamentals	<ul style="list-style-type: none">• Certificate-related Issues
