Certified Information Privacy Professional and Manager prep course + Exam

Duration: 4 Days　　Course Code: CIPPE-CIPM

Overview:

Are you GDPR-ready?
The General Data Protection Regulation (GDPR) takes effect in 2018, are you ready for it? Among its mandates is the requirement to appoint a knowledgeable Data Protection Officer (DPO) tasked with monitoring compliance, managing internal data protection activities, training data processing staff, conducting internal audits and more. There's a lot to know, there's a lot at stake and there's a lot of opportunity for data protection professionals with the right training and education.
Achieving a CIPP/E and CIPM credential shows you have the comprehensive GDPR knowledge, perspective and understanding to ensure compliance and data protection success in Europe—and to take advantage of the career opportunity this sweeping legislation represents.
By adding the CIPM credential to the CIPP/E you'll be uniquely equipped to fulfill the DPO requirements of the GDPR. The CIPP/E relates to the knowledge a DPO must have concerning the European legal framework of the legislation, and the CIPM provides theoretical aspects necessary to lead an organisation's data protection policy.
The CIPP/E part of this training encompasses pan-European and national data protection laws, key data protection terminology and practical concepts concerning the protection of personal data and trans-border data flows. The CIPM part of this training shows that you know how to make a privacy programme work for your organisation. In other words, you're the go-to person for day-to-day operations when it comes to data protection.
The CIPP/E and CIPM program was developed by the International Association of Privacy Professionals (IAPP), which is the world's largest comprehensive global information privacy community and resource. The CIPP/E certification holds accreditation under ISO 17024: 2012.
This four-day programme covering the principals of information privacy and privacy management in the EU private-sector includes: Official IAPP CIPP/E and CIPM Participant GuidesOfficial IAPP CIPP/E and CIPM Textbooks (via MyIAPP account under My Purchase then scroll down to My Ebooks)Official IAPP CIPP/E and CIPM Practice TestsIAPP CIPP/E and CIPM Certification Exam VouchersOne-Year IAPP Membership
Your contact information must be provided to the IAPP for membership services fulfilment

Target Audience:

Data Protection OfficersData Protection LawyersRecords ManagersInformation OfficersCompliance OfficersHuman Resource Officers Anyone who uses, processes and maintains personal data

Objectives:

- In the CIPP/E part of this course you will learn about:
- Data Protection Laws
- Personal Data
- Controllers and Processors
- Processing Personal Data
