

SAP HANA Cloud Platform, Integration Service Overview

Duration: 3 Days Course Code: CLD900 Delivery Method: Virtual Learning

Overview:

This course is designed for integration designers and developers with design and development responsibilities for building integration from and to Cloud applications. Participants will learn how to create integration flows. This is a very hands-on, interactive course.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.
