Testing and Certification

Commvault® Certification Program

Commvault's Certification Program validates expertise and advanced knowledge in topics, including Commvault Professional, Engineer and Master-level technologies. Certification is a valuable investment for both a company and the IT professional. Certified personnel can increase a company's productivity, reduce operating costs, and increase potential for personal career advancement.

Commvault's Certification Program offers Professional-level, Engineer-level, and Master-level certifications. This Program provides certification based on a career path, and enables advancement based on an individual's previous experience and desired area of focus. It also distinguishes higher-level certifications such as Engineer and Master from lower-level certification as a verified proof of expertise.
