

EC-Council Certified Secure Computer User (C|CSU) + Exam voucher

Duration: 2 Days **Course Code: CSCU** **Delivery Method: Company Event**

Overview:

The purpose of the CSCU training program is to provide individuals with the necessary knowledge and skills to protect their information assets. This class will immerse students into an interactive environment where they will acquire a fundamental understanding of various computer and network security threats such as identity theft, credit card fraud, online banking phishing scams, virus and backdoors, emails hoaxes, sex offenders lurking online, loss of confidential information, hacking attacks and social engineering. More importantly, the skills learned from the class helps students take the necessary steps to mitigate their security exposure.

This course prepares an individual to sit for CSCU exam 112-12 This certification is an excellent complement to educational offerings in the domain of security and networking.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.
