

DASA DevOps Enable and Scale – Including Exam

Duration: 2 Days Course Code: DASADEV-PES Version: 1.0

Overview:

Scale DevOps practices across teams and organizations. The DASA DevOps Enable and Scale Certification equips you with the skills, mindset, and behaviors to foster high-performing teams, enable end-to-end collaboration, and remove organizational barriers—allowing you to accelerate value delivery at scale.

Target Audience:

Individuals involved in IT development, IT operations, or IT service management
Individuals whose roles are affected by DevOps and continuous delivery, such as:

- DevOps engineers
- Product owners
- Integration specialists
- Operations managers
- Incident and change managers
- Network Leads
- Business managers
- Automation architects
- Enterprise architects

Objectives:

- After completing this program, you will be able to:
- Explain the importance of **DevOps culture** and the aspects that can influence it.
- Explain why courage, team building, leadership, and continuous improvement are required in a DevOps environment.
- Explain why courage is **essential to enable** trust, honesty, and experimentation.
- Identify and evaluate **different types of behavior** in a DevOps environment.
- Recognize the signals indicating impediments and/or team dysfunctions.
- Describe how to form good DevOps teams.
- List the effects of happiness and motivation on **team performance**.
- Assess the maturity of DevOps teams.
- Identify how leaders **encourage feedback and transparency**.
- Discuss the factors that leaders can influence to build trust.
- Explain how and why leaders promote a **“Safe to fail” environment**.
- Analyze value streams to improve throughput and flow.
- Facilitate the tools for **continuous improvement**: structured problem-solving workshops, Story Mapping sessions, and retrospectives.

Prerequisites:

- Required: DASA DevOps Fundamentals certificate
- Beneficial: Basic familiarity with Agile, Scrum, Lean, and ITSM principles

Testing and Certification
