

DASA DevOps Product Owner – Including Exam

Duration: 2 Days **Course Code: DASADEV-PO** **Delivery Method: Company Event**

Overview:

Maximize product success in DevOps environments. The DASA DevOps Product Owner Certification gives you the skills, mindset, and behaviors to integrate business and IT, manage backlogs effectively, and ensure customer needs are translated into high-value digital products and services. Learn how to drive value creation in high-speed, high-impact digital environments.

The course aims to standardize the team's knowledge and skills required to function effectively and helps you communicate with the team by understanding the common DevOps vocabulary such as CI/CD, test-driven development, cross-functional teams, and iterative development.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.
