# Infoblox NIOS DDI Troubleshooting

## Duration: 2 Days      Course Code: ENINIOSDDIT      Delivery Method: Virtual Learning

## Overview:

Previously known as "Core DDI Advanced Troubleshooting (CDAT)". Troubleshoot the Infoblox Grid and HA (high availability) pairs. Study common root cause analysis and resolution strategies and techniques for network connectivity and DNS and DHCP issues. Use a case-study approach to apply your learnings to real-life failure scenarios and recovery methods.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected.  Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

## Content:

Exam not included.
