SD-WAN Core Operations Administrator

Duration: 2 Days Course Code: SDWANCORE Delivery Method: Virtual Learning

Overview:

English - Please note this course is only available in English.
Nederlands - Let op: deze training is alleen in het Engels beschikbaar.
Franais - Veuillez noter que ce cours est uniquement disponible en anglais.
In this course, you will learn about common SD-WAN deployment scenarios using the Fortinet Secure SD-WAN solution. You will learn how to configure SD-WAN on FortiGate and explore how SD-WAN interacts with the routing and firewall features. This deep understanding of the SD-WAN solution will help you to enhance and troubleshoot SD-WAN deployments.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

Who Should Attend
Anyone responsible for designing a Fortinet SD-WAN solution or for the day-to-day management of a Fortinet SD- WAN deployment and network operations should attend this course.

Objectives:

- **Objectives**
- After completing this course, you will be able to:
- Describe the capabilities of the Fortinet Secure SD-WAN solution
- Deploy FortiOS SD-WAN solutions with FortiGate for a single device solution or small topologies
- Configure basic and advanced SD-WAN features
- Understand the SD-WAN route and rule lookup process
- Use the different rule criteria and strategies available to steer traffic using SD-WAN
- Examine how SD-WAN responds to changing link conditions
- Troubleshoot SD-WAN routing and rule matching issues

Prerequisites:

Prerequisites

You must have advanced knowledge of networking, and extensive hands-on experience working with FortiGate.

It is recommended that you have an understanding of the topics covered in the following courses, or have equivalent experience: *FortiOS.*

Testing and Certification

Certificate
The participants will obtain certificates signed by Fortinet (course completion).
This course prepares you also for the *NSE6 -SD-WAN Architect* exam. By passing this exam, you will be awarded the associated exam badge.

Content:

Conspect	Members, Zones, and Performance SLAs	Rule Strategies in Action
Introduction	Define and Configure Rules	Routing and Sessions
