SD-WAN Enterprise Administrator

Duration: 2 Days Course Code: SDWANENT Delivery Method: Virtual Learning

Overview:

English - Please note this course is only available in English.
Nederlands - Let op: deze training is alleen in het Engels beschikbaar.
Franais - Veuillez noter que ce cours est uniquement disponible en anglais.
In this course, you will learn how to design, deploy, and manage advanced Fortinet Secure SD-WAN environments across branches and regions. You will also learn how to enhance and troubleshoot SD-WAN deployments, deploy complex topologies using overlay templates, and implement zero-touch provisioning for scalable deployments. These advanced topics will help you optimize SD-WAN performance and reliability in distributed enterprise networks.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

Anyone responsible for designing a Fortinet SD-WAN solution or for the day-to-day management of a Fortinet SD-WAN deployment and network operations should attend this course.

Objectives:

- **Objectives:**
- After completing this course, you should be able to:
- Describe the capabilities of the Fortinet Secure SD-WAN solution
- Configure and monitor FortiOS SD-WAN solutions with FortiManager and FortiAnalyzer
- Configure SD-WAN management on FortiManager
- Configure advanced SD-WAN features/li>
- Use the FortiManager SD-WAN overlay orchestrator
- Use ZTP to deploy SD-WAN branch devices
- Describe the use cases for SD-WAN with dual-hub topologies
- Design a scalable SD-WAN hub-and-spoke topology
- Implement SD-WAN using ADVPN 2.0 and dynamic BGP

Content:

Agenda:	SD-Branch and Zero-Touch Provisioning	Dual-Hub and Multiregion Topologies
Centralized Management	SD-WAN Overlay Design and Best Practices	ADVPN
