

Extended Warehouse Management - Customizing Part I

Duration: 5 Days **Course Code: EWM110** **Delivery Method: Virtual Learning**

Overview:

In this course you can define and set the mandatory configuration required to customize the implementation of SAP EWM. Instructor-led discussions and hands-on exercises will enable you to see the results of your configuration settings. This course also includes information about the differences between de- centralized EWM and S/4HANA embedded EWM

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.
