

SAP Integrated Business Planning - Advanced Configuration

Duration: 4 Days **Course Code: IBP300** **Delivery Method: Virtual Learning**

Overview:

In this course you will model a business process using SAP Integrated Business Planning. You will also acquire a sound understanding of the setup process, troubleshooting information, data management and reporting, analytics, and social collaboration. Instructor-led training is supplemented with hands-on exercises.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.
