ISO/IEC 27005 Information Security Risk Management Risk Manager (PECB Certified) - Including Exam

Duration: 3 Days **Course Code: ISO27005RM** **Delivery Method: Company Event**

Overview:

The ISO/IEC 27005 Risk Manager training course enables participants to understand the process of developing, establishing, maintaining, and improving an information security risk management framework based on the guidelines of ISO/IEC 27005.
The ISO/IEC 27005 Risk Manager training course provides valuable information on risk management concepts and principles outlined by ISO/IEC 27005 and also ISO 31000. The training course provides participants with the necessary knowledge and skills to identify, evaluate, analyze, treat, and communicate information security risks based on ISO/IEC 27005. Furthermore, the training course provides an overview of other best risk assessment methods, such as OCTAVE, MEHARI, EBIOS, NIST, CRAMM, and Harmonized TRA.
The PECB ISO/IEC 27005 Risk Manager certification
dhttps://pecb.com/education-and-certification-for-individuals/risk-assessment-methods-trainingemonstrates that you comprehend the concepts and principles of information security risk management.
The training course is followed by an exam. After passing the exam, you can apply for the “PECB Certified ISO/IEC 27005 Risk Manager” credential.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Target Audience:

This training course is intended for:
- Managers or consultants involved in or responsible for information security in an organization
- Individuals responsible for managing information security risks
- Members of information security teams, IT professionals, and privacy officers
- Individuals responsible for maintaining conformity with the information security requirements of ISO/IEC 27001 in an organization
- Project managers, consultants, or expert advisers seeking to master the management of information security risks

Objectives:

- **Upon the successful completion of this training course, you will be able to:**
- Explain the risk management concepts and principles outlined by ISO/IEC 27005 and ISO 31000
- Establish, maintain, and improve an information security risk management framework based on the guidelines of ISO/IEC 27005
- Apply information security risk management processes based on the guidelines of ISO/IEC 27005
- Plan and establish risk communication and consultation activities

Prerequisites:

- ISO27005F - ISO/IEC 27005 Information Security Risk Management Foundation (PECB Certified) - Including Exam

Testing and Certification

The “PECB Certified ISO/IEC 27005 Risk Manager” exam meets all the requirements of the PECB Examination and Certification Program (ECP). It covers the following competency domains:

- **Domain 1:** Fundamental principles and concepts of information security risk management
- **Domain 2:** Implementation of an information security risk management program
- **Domain 3:** Information security risk management framework and processes based on ISO/IEC 27005

- **Domain 4:** Other information security risk assessment methods

After successfully completing the exam, you can apply for one of the credentials listed below. You will receive a certificate once you meet all the requirements related to the selected credential.

PECB Certified ISO/IEC 27005 Provisional Risk Manager

- Exam: PECB Certified ISO/IEC 27005 Risk Manager exam or equivalent
- Professional experience: None
- Risk management experience: None
- Other requirements: Signing the PECB Code of Ethics

PECB Certified ISO/IEC 27005 Risk Manager
