

ISO 31000 Risk Management Lead Risk Manager (PECB Certified) - Including Exam

Duration: 4 Days **Course Code: ISO31000LRM**

Overview:

The ISO 31000 Lead Risk Manager training course provides participants with a comprehensive understanding of the principles, framework, and process of risk management as outlined in ISO 31000. The course covers both the theoretical and practical aspects of establishing, implementing, and maintaining a risk management framework and process within an organization.

The ISO 31000 Lead Risk Manager training course equips participants with the knowledge and skills to lead, implement, and continuously improve risk management frameworks based on ISO 31000 guidelines. Through this course, participants will learn how to support their organization in identifying, assessing, and managing risks effectively, helping to protect value, enhance decision-making, and improve performance across business operations. Furthermore, it provides guidance on the selection and application of techniques for assessing risks in a variety of contexts.

Upon completion of the training course, participants can sit for the exam and apply to obtain the "PECB Certified ISO 31000 Lead Risk Manager" credential. The credential demonstrates that the participant possesses the theoretical and practical knowledge and professional capabilities to support and lead risk management processes based on ISO 31000 guidelines and best practices in this field.

Target Audience:

This training course is intended for:

- Managers or consultants involved in and concerned with the implementation of a risk management program in an organization
- Project managers, consultants, or expert advisers seeking to master the implementation of a risk management framework and process
