

Ivanti Identity Director

Duration: 3 Days **Course Code: IVID**

Overview:

This Ivanti Identity Director training is a 3-day course, intended for administrators who already work with Ivanti Automation (formally known as RES Automation), and want to learn how they can implement self-servicing and automatic service delivery in their organization. This course does not provide training on designing business processes.

Target Audience:

This Ivanti Identity Director course is intended for administrators who already work with Ivanti Automation, and want to learn how they can implement self-servicing and automatic service delivery in their organization.

Objectives:

- After completing this Ivanti course, you can:
- Install the components of Ivanti Identity Director (formerly known as RES ONE Identity Director)
- Build an organizational structure
- Configure, deliver and return services Manage your Ivanti Identity Director environment
- Integrate Ivanti Identity Director with Ivanti Automation

Prerequisites:

- Ivanti Automation (IVA)

Testing and Certification

This Ivanti Identity Director training will provide you a good good preparation for the Certified Identity Director Administrator exam.

The Certified Identity Director Administrator exam is targeted at Identity Management Professionals responsible for administering Asset Manager. It validates your ability to build, configure, troubleshoot, and maintain components of the Identity Director solution.

The exam consists of 75 questions that must be completed in 80 minutes. You need to earn 80% or higher in order to certify. The questions are based off content taught in the Identity Director training.

Content:

- Introduction of Ivanti Identity
- Installation and Setup, including administrative roles and licensing
- The Organizational Structure
- External Data Sources
- The Service Catalog
- Placeholders and Functions
- Smart rules
- Management and Administration, including the transaction safeguard, branding and self-service password management
- Integration with Ivanti Workspace and Ivanti Automation, including Service Templates and Service Publications
