

Introduction to supply chain management in Dynamics 365 (AB-6005)

Duration: 1 Day **Course Code: M-AB6005**

Overview:

Designed for beginners, this course explores how Dynamics 365 Supply Chain Management supports end-to-end business operations—from product setup and inventory control to sales, procurement, and manufacturing—while integrating with the Microsoft ecosystem and leveraging AI-assisted insights.

Updated June 2026

Target Audience:

This course is intended for learners who are new to Dynamics 365 and want to understand how Supply Chain Management supports end-to-end business operations. It is designed for individuals interested in procurement, inventory, warehousing, manufacturing, and planning processes, and how these functions are unified within an ERP solution.

Prerequisites:

Participants should have a basic understanding of business processes and general knowledge of enterprise resource planning (ERP) concepts.

Testing and Certification

Follow-on-Courses:

None
