

## Microsoft Intune workshop

**Duration: 1 Day**    **Course Code: M-INTUNE**

### Overview:

This 1-day workshop will take you beyond the standard device management you have seen in course M-MD101. You will learn how to take Cloud based Device Management to the next level. You will also learn about the capabilities of Microsoft Defender for Endpoint and how to integrate this with both Intune and Cloud App Security. Next, you will also learn how to BYOD is done right.

### Target Audience:

System engineers responsible for device management and modern workplace management will profit most.

### Objectives:

- The goal of this workshop is to gain a complete 360 overview on everything that is related to Modern Workplace Management available in the Microsoft365 Enterprise suite.

### Prerequisites:

This workshop requires the knowledge and experience covered in course M-MD101, Managing Modern Desktops.

- M-MD101 - Managing Modern Desktops (MD-101)

### Testing and Certification

-
