

NIS 2 Directive Foundation (PECB Certified) + exam

Duration: 2 Days **Course Code: NIS2-F** **Delivery Method: Company Event**

Overview:

The NIS 2 Directive Foundation training course outlines the essential insights necessary for understanding the requirements of NIS 2 Directive regarding cybersecurity measures. It provides the core concepts required to support organizations in the initial phases of planning,

implementation, and management of cybersecurity programs. **Why Should You Attend?**

The NIS 2 Directive Foundation training course provides an introduction to the NIS 2 Directive aiming to help organizations enhance their cybersecurity in the face of ever-emerging cyber threats. This legislation serves as a central role in strengthening cybersecurity within critical infrastructure sectors such as energy, transport, healthcare, and digital services. The PECB NIS 2 Directive Foundation training course covers the fundamental concepts related to the Directive's requirements. It provides information that will help you understand the best practices for protecting critical infrastructure from cyber threats.

After attending the training course, you can take the exam, and if you successfully pass it, you can apply for a "PECB Certificate Holder in NIS 2 Directive Foundation" credential.
