## Palo Alto Networks: Panorama Managing Firewalls at Scale (EDU-220)

**Duration: 2 Days**    **Course Code: PAN-EDU-220**    **Version: 11.1.A**    **Delivery Method: Class Connect**

---

### Overview:

The Palo Alto Networks Panorama: Managing Firewalls at Scale (EDU-220) course is two days of instructor-led training that should help you to:

- Learn how to configure and manage the next-generation Panorama management server
- Gain experience configuring templates (including template variables) and device groups
- Gain experience with administration, log collection, and logging and reporting
- Become familiar with planning and design considerations for Panorama deployment

Class-Connect™ HD

This is live hands-on interactive learning where you can attend a course from different training centres. This premium experience uses HD quality audio and video that connects the classrooms over a high capacity managed network to ensure a 'real time' experience. The instructor will be presenting from one location and students attending from other centres are able to interact with the instructor and other delegates using video and voice conferencing.

---

### Target Audience:

Security Administrators Security Operations Specialists Security Analysts Security Engineers and Architects

---

### Objectives:

- This course should help students gain in-depth knowledge about configuring and managing a Palo Alto Networks Panorama management server. Administrators that complete this course should become familiar with the Panorama management server's role in managing and securing the overall network.
  - Network professionals will be shown how to use Panorama aggregated reporting to provide them with a holistic view of a network of Palo Alto Networks next[1]generation firewalls.
- 

### Prerequisites:

- Participants must have completed the Firewall Essentials: Configuration and Management (EDU-210) class.
  - Participants must be familiar with Palo Alto Networks next-generation firewall management and basic networking concepts, including routing and IP addressing.
  - PAN-EDU-210 - Palo Alto Networks: Firewall Essentials: Configuration and Management (EDU-210)
- 

### Follow-on-Courses:

- PAN-EDU-330 - Palo Alto Networks: Firewall Troubleshooting (EDU-330)
-

## Content:

### Course Modules

1 - Initial Configuration

2 - Adding Firewalls

3 - Templates

4 - Device Groups

5 - Log Collection and Forwarding

6 - Using Panorama Logs

7 - Panorama Administrative Accounts

8 - Reporting

9 - Troubleshooting

---

## Additional Information:

### Palo Alto Networks Education

The technical curriculum developed by Palo Alto Networks and delivered by Palo Alto Networks Authorized Training Partners helps provide the knowledge and expertise you need to protect our digital way of life. Our trusted certifications validate your knowledge of the Palo Alto Networks product portfolio and your ability to help prevent successful cyberattacks and safely enable applications
