## Palo Alto Networks: Firewall Troubleshooting (EDU-330)

Duration: 3 Days    Course Code: PAN-EDU-330    Version: 11.1.A

---

### Overview:

The Palo Alto Networks Firewall: Troubleshooting course is three days of instructor-led training that will help you to:

- Use firewall tools, including the CLI, to investigate networking issues
  - Follow proven troubleshooting methodologies that are specific to individual features
  - Analyze advanced logs to resolve various real-life scenarios
  - Solve advanced, scenario-based challenges
- 

### Target Audience:

Security Engineers and Administrators Security Operations Specialists and Analysts Network Engineers Support Staff

---

### Objectives:

- Successful completion of this three-day, instructor-led course will enhance the participants understanding of troubleshooting the full line of Palo Alto Networks next-generation firewalls.
  - Completing this class will help participants develop an in-depth knowledge of how to troubleshoot visibility and control over applications, users, and content.
  - Participants will perform hands-on troubleshooting related to the configuration and operation of the Palo Alto Networks firewall.
- 

### Prerequisites:

- Participants must complete the Firewall Essentials: Configuration and Management (EDU-210) course.
  - Participants must have strong practical knowledge of routing and switching, IP addressing, network security concepts, and at least six months of on-the-job experience with Palo Alto Networks firewalls.
  - PAN-EDU-210 - Palo Alto Networks: Firewall Essentials: Configuration and Management (EDU-210)
-

## Content:

### Course Modules

1 - Tools and Resources

2 - Flow Logic

3 - Packet Captures

4 - Packet-Diagnostics Logs

5 - Host-Inbound Traffic

6 - Transit Traffic

7 - System Services

8 - Certificate Management and SSL  
Decryption

9 - User-ID

10 - GlobalProtect

11 - Support Escalation and RMAs

12 - Next Steps

---

## Additional Information:

### Palo Alto Networks Education

The technical curriculum developed by Palo Alto Networks and delivered by Palo Alto Networks Authorized Training Partners helps provide the knowledge and expertise you need to protect our digital way of life. Our trusted certifications validate your knowledge of the Palo Alto Networks product portfolio and your ability to help prevent successful cyberattacks and safely enable applications.
