

Palo Alto Networks: Prisma Access

Duration: 1 Day **Course Code: PAN-PAB**

Overview:

The Prisma Access Browser course introduces you to the operational deployment of Prisma Access Browser and how it helps organizations meet the needs of the modern workforce by providing cloud-based network connectivity and security services.

Target Audience:

This course is intended for Security Engineers, Security Administrators, Security Operations Specialists, Security Analysts, and Network Engineers.

Objectives:

- Successful completion of this one-day, instructor-led course will help enhance your understanding of how to secure the internet and private applications better using a secure enterprise browser. In a lab environment, you will get hands-on experience configuring, managing, and troubleshooting Prisma Access Browser via Strata Cloud Manager.

Prerequisites:

Participants should have a basic knowledge of cloud computing and public cloud, as well as experience with networking concepts, including routing, switching, and IP addressing.

In addition, participants should complete the following prerequisites to be optimally prepared for the course:

- Prisma Access (Strata Cloud Manager) digital learning paths
- (Recommended) Firewall Essentials: Configuration and Management or equivalent experience.
- PAN-EDU-210 - Palo Alto Networks: Firewall Essentials: Configuration and Management (EDU-210)

Testing and Certification

The Security Service Edge Engineer certification has some topics on Prisma Access Browser so it is considered a related certification

- [Palo Alto Networks Certified Security Service Edge Engineer](#)
