

Crisis Management Practitioner

Duration: 5 Days Course Code: S-CMP

Overview:

The demand for qualified crisis managers is increasing. With this qualification, you will be internationally recognised as a crisis manager who is able to implement and anchor a crisis management process. The Crisis Management Practitioner course will prepare you for a possible crisis by showing you how to identify, prioritise and manage events, and equipping you with the skills you need to build up resilience and effectively respond to the crisis.

Target Audience:

This security course is aimed at those who are or expect to be involved in crisis management, such as: Crisis managers Business continuity managers/ officers Facility managers Security managers
Finally, this certificate is intended to be an important career milestone for crisis management professionals, as it constitutes the second level of a complete and extensive [Certified Crisis Management Officer certification track](#). Achieving the Crisis Management Practitioner certificate provides students with a solid knowledge to be able to continue with the [Crisis Management Expert](#) certificate, and advance their career to become a CCMO. Students who already possess medium-level crisis management knowledge can decide to **start their training with the Expert level of**

Objectives:

- The course lays a solid foundation in which the most essential aspects of crisis management are amply discussed. Besides the theory, this course is mainly characterized by the practical approach; a lot of practice, application and collaboration with the other students.
-
