

Business Processes in SAP S/4HANA Sourcing & Procurement

Duration: 4 Days Course Code: S4500 Delivery Method: Company Event

Overview:

This course provides a comprehensive overview of the processes in SAP S/4HANA sourcing and procurement. You will learn about the fundamentals, major business processes and functions in materials management. This course is mostly suitable for participants who are not familiar with the procurement processes in SAP ERP. For those who already come with background knowledge about procurement in SAP ERP, the delta training S4PR1 is more applicable.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.
