
Exploring Business Processes for Supply Chain Execution in SAP S/4HANA Cloud

Duration: 3 Days **Course Code: S48800** **Delivery Method: Virtual Learning**

Overview:

In this course the key business processes that can be found within the Supply Chain Execution area of the SAP S/4HANA Enterprise Management solution are discussed. Both inbound (goods receipt) and outbound (goods issue) processes are included. Organizational units, master data and the monitoring of these processes, as well as integration with the Extended Warehouse Management (EWM) and Transportation Management (TM) solutions of SAP, are also discussed. Examples of other topics included in the course are Yard Management and Value-added Services (VAS).

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.
