

Custom Code Migration from SAP ERP to SAP S/4HANA

Duration: 2 Days **Course Code: S4D440** **Delivery Method: Company Event**

Overview:

To attend this course, you require prerequisite knowledge about ABAP Development in general and ABAP Programming for SAP HANA. The course will prepare you to migrate custom code from an SAP ERP System to SAP S/4HANA. The course will explain SAP S/4HANA Simplifications and how they can affect your custom code. You will learn how to analyze the SAP S/4HANA Simplifications and to locate related problems in your custom code. Exercises and demos for typical scenarios will help you find adequate solutions for real issues in your custom code.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Target Audience:

- Developer
- Development Consultant
