

# **EXIN Service Integration and Management (SIAM™) Professional – Including Exam**

#### Overview:

Service Integration and Management (SIAM) is a methodology used to manage and seamlessy integrate multiple service providers to ensure a single business-facing IT organization. The EXIN SIAM<sup>TM</sup> Professional certification tests a candidate's knowledge and skills of the activities in the four stages of the SIAM roadmap. A candidate who successfully completes the EXIN SIAM<sup>TM</sup> Professional can analyze, plan, build and inspect a multi-service provider environment.

#### Scope

The EXIN SIAM™ Professional certification tests a candidate's knowledge of the application of SIAM™ to situations and the candidate's ability to further analyze the SIAM concepts in the following areas:

- The Discovery and Strategy stage
- The Plan and Build stage
- The Implement stage
- The Run and Improve stage
- SIAM practices across the stages

### Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

## **Target Audience:**

The target group includes, but is not limited to:

- Service Managers and Practitioners
- Service Provider Portfolio Managers
- Process Managers
- Project Managers
- Change Managers
- Service Level Managers
- Business Relationship Managers
- Program Managers
- Supplier Managers
- Service Architects
